PRODUCT DESCRIPTION

Our Casita Canopy Tents™ are an excellent way to provide shade during outdoor events. This canopy has a 5' x 5' footprint with five height settings on the legs. Each square leg is 30mm thick. Heat Press stock canopies are available with 1 or 2 color logos. The logos are die-cut from vinyl and then imprinted onto fabric using a heat press transfer system. Choose up to 6 imprint locations (2 peaks and 4 valances).

SET UP INSTRUCTIONS

Step 1

Take your frame and slightly expand it open to expose the corner bars.

Step 2

Take your canopy graphic and place it on top of the frame.

Step 3

Adhere each corner of the canopy to each corner of the frame. Inside each corner of the canopy, there is a strip of loop Velcro sewn to it and each corner of the frame has a strip of hook Velcro.

Step 4

With the canopy securely in position, expand the frame until the corner latches lock into place.

Step 5

Increase the height by extending the lower legs.

Step 6

Pull each leg down until the latch locks into place.

Step 7

Locate the spindle under the canopy, in the middle of the frame. Pull the lever out and rotate to extend the upper peak pole. The dome cap will push out the canopy creating tension to flush out any loose areas.

Step 8

The install is complete.
